📚 DL Unit 2 – In-Sem Question Bank

Perceptrons, Activation Functions, Training • Answered with diagrams

← Unit 1 Questions

🔴 HIGH – Asked 3 times 🟠 MEDIUM – Asked 2 times 🟢 LOW – Asked 1 time

Q1 What is a Perceptron? What are the steps involved for training a Perceptron in Deep Learning?

HIGH 5 Marks ✓ Answered

Q2 What is the Biological Neuron? Write short note on Multilayer Feed-Forward Network with figure.

HIGH 5 Marks ✓ Answered

Q3 What is an Activation Function? Enlist and Explain different Activation functions used in Neural Network.

HIGH 5 Marks ✓ Answered

Q6 Why are Hyperparameters used in Neural Networks? What are the methods for tuning hyperparameters?

MEDIUM 5 Marks ✓ Answered

Q7 Explain Sentiment Analysis and its types in detail.

MEDIUM 5 Marks ✓ Answered

Q8 Write short note on PyTorch and Google Colab.

LOW 5 Marks ✓ Answered

Q9 Explain Gradient Descent. Why does the Vanishing or Exploding Gradients problem happen?

HIGH 5 Marks ✓ Answered
